

The learning program at CathWest

CathWest Innovation College is school done differently. The learning program for students in 2020 will see a series of projects undertaken with all New South Wales Education Standards Authority (NESA) course requirements for Years 10 and 11 mapped according to these projects. An example of the subjects offered for Year 10 and 11 are detailed below.

Example of the learning program for Year 10 students

These subjects will be embedded within the projects that each student will undertake over the year:

- English
- Mathematics
- Science
- Human Society & its Environment (HSIE)
- Personal Development, Health and Physical Education (PDHPE)
- Religion

Electives will be chosen in consultation with each student according to their individual learning needs, their passion project area/s and/or career ambitions.

Example of the learning program for Year 11 students

Core subjects that students will undertake:

- English
- Business Services (Cert II)
- Religion (Catholic Studies/Active Volunteering)

Additional courses may include the following according to the student's pathway:

- Mathematics (Standard/Standard 1)
- Business Services (Cert III)
- Information & Digital Technology (SOA* Cert III)
- Live Production and Services - Entertainment (Cert III)
- Work Studies
- Skills for Work
- Industry-Based Learning
- Retail (Cert III)
- Tourism (Cert III)
- Hospitality (Cert II)
- Photography, Video and Digital Imaging
- Visual Design
- Computer Applications

Courses will be chosen in consultation with each student according to their individual learning needs, their passion project area/s and/or career ambitions.

*SOA = Statement of Attainment - Some units of competency will be completed out of the full qualification.
